DIGITAL OPTIONS

Take your branding and signage to the next level by going digital and adding some high resolution content. Digital content provides a more dynamic look and feel, it provides greater flexibility with changes and updates and it suits a more sustainable approach.

We have a number of different solutions for digital signage and branding that will enhance the overall experience. Our digital options include a microtile media wall and microtile digital signage column that are encased in a high quality scenic shroud, slimline LG stretch monitors that come with a small footprint and UHD LED screens on portable stands.

Our expert in-house team can provide a full digital and creative service that includes design, creation and installation.
