

Streaming Package

OVERVIEW OF PACKAGE

This streaming package will provide a single video camera in a locked off position to be live streamed through the high spec streaming laptop with encoding and streaming software.

The package enables live streaming from the single camera feed to a destination of choice. The camera feed can be mixed between the PowerPoint and Video content from the show laptop.

A supplied live streaming engineer will be on-site to ensure that a high-quality video stream is broadcast of your event.

THE PACKAGE

- Broadcast video camera (locked off camera position)
- Tripod
- Streaming Laptop
- Capture devise for camera feed
- 3 x desktop microphones
- Audio interface
- All associated licensing
- Live streaming engineer

DAY RATE
£1399 + VAT
